

Transform Spend Management with an End-to-End Platform

The energy and utilities sector is undergoing a major transformation. As the industry faces deregulation, decentralization, decarbonization, and digitalization, it presents both challenges and opportunities. Successfully navigating these disruptive forces will require adjustments to both strategy and execution, as well as new ways to help keep costs down.

It's time to find new ways to work. Adopting a modern, technology solution for your company's travel, expense, and invoice management gives you the control needed to securely manage costs, spot concerns, reduce carbon emissions, and ensure your organization is well-positioned to meet the challenges of today and tomorrow.

Streamline your business processes

Sustainability and digital transformation are on the rise. By taking your travel and expense (T&E) to the cloud, you'll be reducing the need to do business on spreadsheets or piece-meal solutions and with it, the tedious steps that erode efficiency and increase costs.

Ensuring your invoices, travel bookings, and employee expenses are integrated into a comprehensive, streamlined digital platform makes it easy to see and control all of your employees' spending, so you can reduce costs and drive sustainable growth.

Benefits of a digital spend management solution

Time and cost savings

Streamlining your travel and spend management processes on a single, integrated solution creates a simple way to eliminate paper, reduce errors, and quickly regain control.

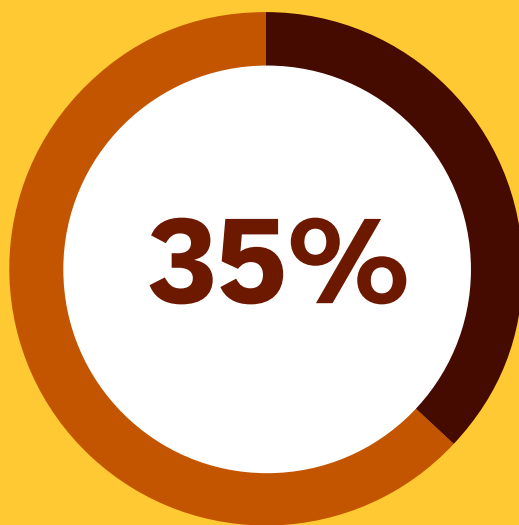

More efficient processes

Unite all of your disparate spend data and processes into a seamless solution that automates the workflow from mileage and travel tracking to expense reporting and reimbursement.

Increased visibility and agility

Capture total T&E spend and invoice data into a single view to more effectively manage and forecast budgets, mitigate fraud, and adapt quickly.

of utility and energy companies use a T&E system that doesn't connect to their internal financial system.¹

Bring out your best with modern spend management from SAP Concur

For over 25 years, SAP Concur has found innovative ways to overcome the challenges and address the barriers that organizations face. We're trusted to help eliminate the guesswork and tailor a solution around industry best practices – one that's secure, scalable, and sustainable – all while ensuring the proper management of employee spending.

See all your spending and get more control

[Concur Expense](#) gives you visibility into total department spending down to each detailed transaction, so you can manage budgets more effectively, forecast more accurately, and achieve compliance with industry regulations and policies.

Automate AP processes for a more complete picture

[Concur Invoice](#) automates and simplifies the AP process, eliminating manual invoice routing, approvals, payments, and the costly errors that accompany them.

Reduce the risk of incorrect and fraudulent payments

With tight budgets and regulatory scrutiny, you can't afford improper spending. [Intelligent Audit](#) pairs real human auditors with AI to improve your first pass ratio and make audits more efficient. [Concur Detect solution by Oversight](#) uses trend and pattern recognition to automatically analyze expense reports and resolve issues before and after reimbursement.

Simplify travel management while providing more sustainable choices

[Concur Travel](#) integrates content from multiple sources and connects you to every travel dollar spent – wherever and whenever it's incurred – creating a single, scalable way to book, manage, and track your travel. Sustainability features allow you to offer Earth-friendly choices and keep an eye on your overall footprint.

Reduce padded mileage reports with automated GPS tracking

[Concur Drive](#) automatically documents, reports, and reimburses actual distance driven using mobile tools, so you can reduce intentional and unintentional waste.
