

# Integrate best-in-class SAP applications with SAP Concur solutions

# Leverage SAP Concur and SAP native integration to see the full picture

Control your finances with end-to-end, automated data synchronization between SAP Concur solutions and your SAP cloud ERP. Integrating the world's most powerful spend management tool with your SAP business applications means you can more effortlessly and accurately manage expenses to get a complete view of your finances in one place.

SAP Concur automates and connects the entire spending process—from pre-spend approval to reconciliation, reporting and analytics—right into your SAP systems. The direct data exchange between these systems enable you to accurately post Concur Expense and Concur Invoice data in your SAP financial systems, establish continual communication between systems, reimburse your employees and vendors faster and free up your employees for more important initiatives.

Seamless data integration between SAP Concur and SAP systems gives you end-to-end visibility of all your spending in near real time.

## **Accurate financial postings**

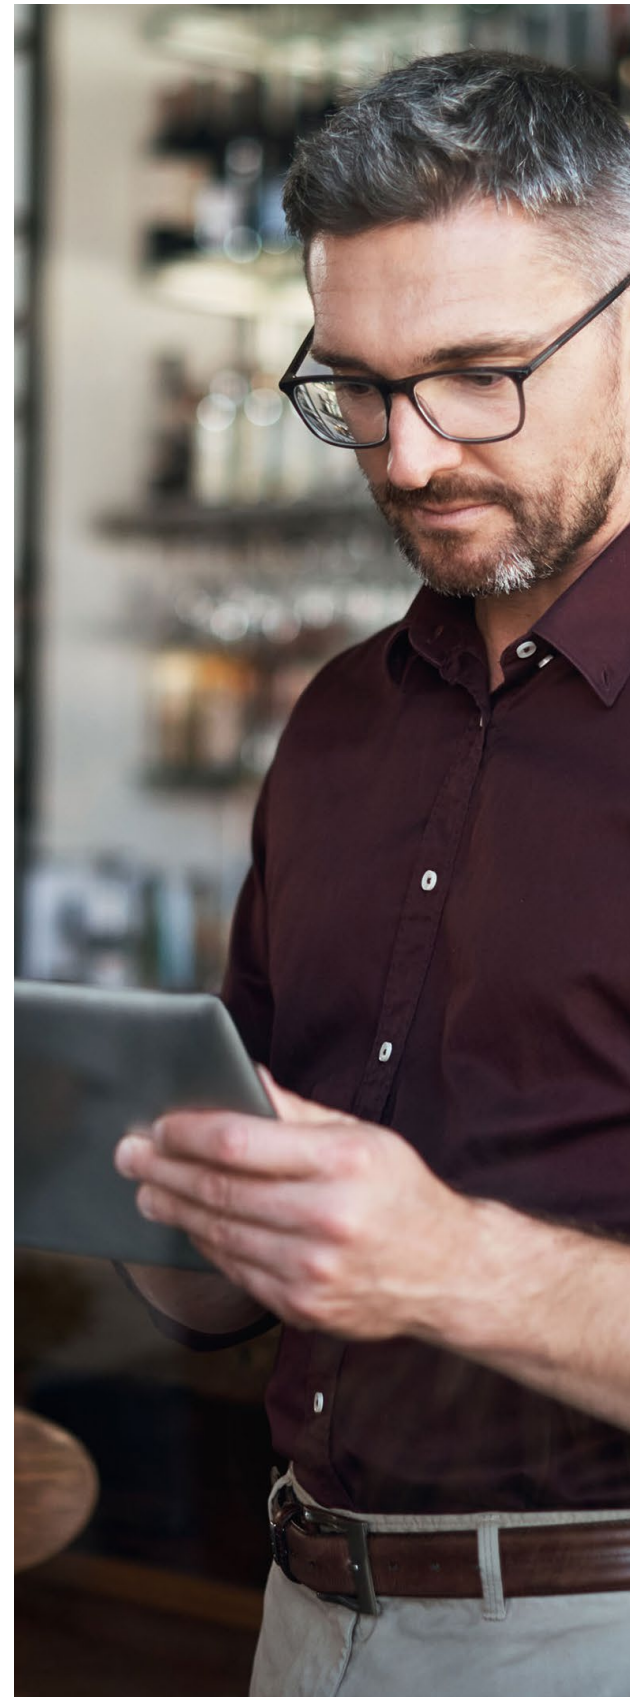

Near real-time data synchronization between systems means no manual interaction required and your organization can reimburse employees faster, without errors and delays caused by middleware.

## **A safe solution for moving to the cloud**

Native integration between SAP Concur solutions and SAP systems gives you the benefits of cloud-based expense management securely connected with your familiar SAP systems.

## **Connected systems means more insights**

Concur Expense and Concur Invoice along with your SAP systems brings complete visibility and reporting across all channels of employee spend in a single system—yours.

## Simplify your processes with native SAP and SAP Concur integration

The SAP Concur and SAP end-to-end integration eliminates manual data entry across multiple systems and the delays of manual exporting. This gives you a quick, simple, and accurate way to process expense transactions in SAP Concur. Plus, quick and easy posting of financial transactions and faster payments in your SAP system.

- Eliminate manual processes—including file uploads and downloads.
- Minimize risk of posting errors by automation—keeping master data in both systems in sync.
- Simple integration process monitoring helps you quickly and efficiently identify and correct financial posting issues.
- Direct integration with SAP ERP, SAP S/4HANA, and SAP S/4HANA cloud creates accurate integrations across payroll, exchange rates, and financial posting of cash advances and expense reports for faster payments.
- Reduce the need for connectors and middleware to reduce system complexity.
- Flexible mapping and conversion to support customer-specific integration use cases.

### How it works: SAP and SAP Concur integration

- Execute the guided configuration and integration instructions.
- Optional: Map SAP API fields to appropriate SAP Concur fields.
- Start the integration process with initial master data replication.
