

Grow your business, not complexity

The flexible and comprehensive rates available within your SAP Concur solutions provide nearly endless options for configuring your system to meet your spend management needs. But managing rates takes time and resources.

Managed Rate Administration can lighten the load by providing expert, on demand service to maintain and update rates and configurations across your solutions.

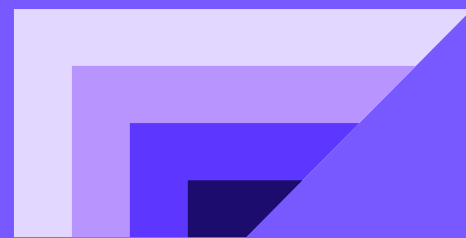

Make growth a driver, not a blocker

As your business expands, particularly into new countries, so will the number of rates that need to be maintained. With Managed Rate Administration you can easily and confidently allocate this additional workload to the subject matter experts at SAP Concur, ensuring your organization's growth will drive your business forward, not slow it down.

With Managed Rate Administration, all you need to do is authorize the changes, and then our experts can make sure your system is up to date.

Add experience, not overhead

Running a business requires specialized talent to ensure all areas of your operation are working optimally. With Managed Rate Administration you will have experts dedicated to maintaining this important area of your business, employing best practices and subject matter expertise, freeing your staff to stay on point with their most critical tasks.

Get the help you need, when you need it

Gain peace of mind with expert, on demand management of:

- Travel allowance configuration updates
- VAT configuration updates
