

Accelerate your business with the Xero Accounting Integration

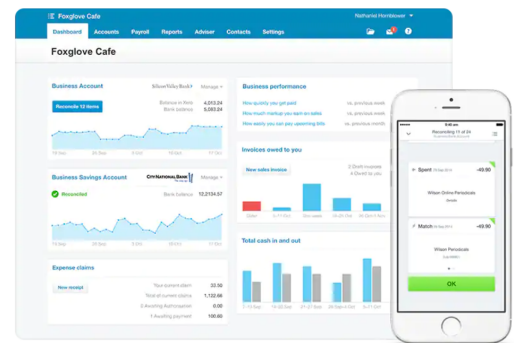

Connect your Xero system with SAP Concur solutions to accelerate your business and eliminate data silos.

The Xero Accounting Integration gives you a simple and seamless way to share data between Xero accounting software and your existing SAP Concur solutions. By adding this integration, you can save hours on manual data entry, get more visibility into spend, and more.

- Connect customer lists, reimbursable expenses, credit cards, and more
- Gain visibility into all AP data (without sorting through mountains of paper)
- Synchronize business purpose, merchant, client, and more across systems
- Use the expense reporting tool to track financial health and adapt as needs evolve

The Xero Accounting Integration is part of the SAP Concur integration solutions and provides a simple way to streamline your financial integration.
